

SALT LAKE TRIP

2019

On February 3rd the 49ers once again invaded Salt Lake.

This year presented a number of challenges and opportunities .

The first was a call from my hotel contact that the hotel was over booked and they would have to move some of the 49ers to another hotel. This was at no cost to our 49ers and they could also come to the Hawthorn to eat breakfast. I was assured that this situation would not happen in the future.

The second challenge was the weather. High winds were predicted as well as the most snow the City had seen in years.

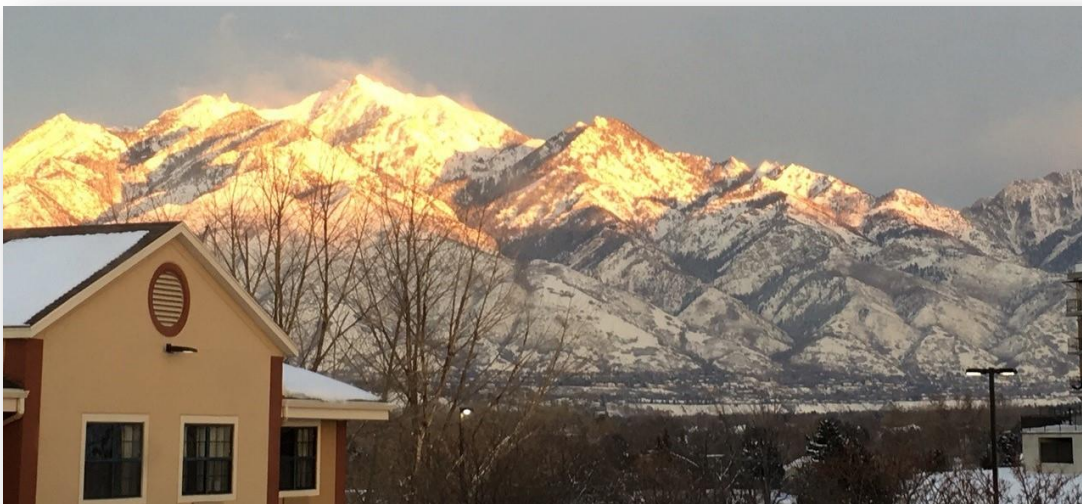

The bright side was it gave the 49ers a chance to visit Deer Valley, Brighton and Solitude. One member said they really enjoyed Solitude and didn't even know it existed.

On Wednesday, 3 of us kept up the tradition and skied Snow Basin with a stop at the Shooting Star for a Star burger and beer.

Monday evening was the group dinner at the Bohemian Brewery. The food and service were excellent as always.

Thanks to John W. for suggesting and passing along the word that we all get together on Thursday after skiing at the porcupine Bar and grill.
